PBCDF continued safe and compliant mustard disposal processing this week. On Friday, January 8 PBCDF received approval from the Arkansas Department of Environmental Quality of the Class 1 Permit Modification Request. PBCDF is now authorized to move from the restricted 75 percent feed rates to the maximum 100 percent feed rates for both the LIC and MPF. PBCDF will pause processing to adjust the set points for the furnaces to the new feed rates, and then begin processing at 100 percent.

On Monday, January 11 the subcontractor completed demolition on the former BZ facility at the PBCDF site.
